

The Traveler's Bridge Floorplan

For the floor section below, lay your floor tile blocks on this plan **upside-down**.
Glue your 3" x 6 1/2" cardboard section on top of it.

For the side section of the bridge, lay your blocks directly on the plan and glue them together.
Do not glue them to this plan.

The Traveler's Bridge Building Instructions

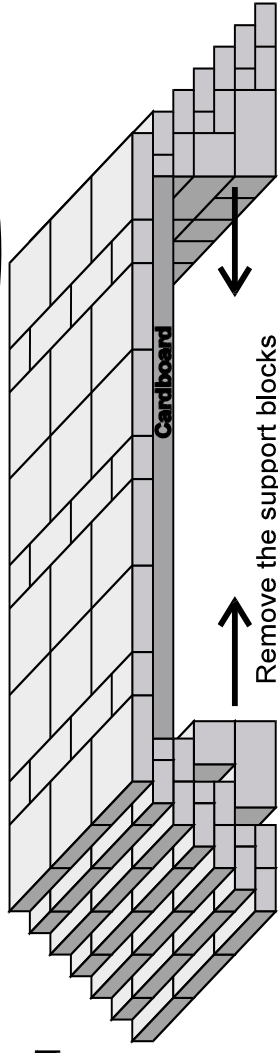

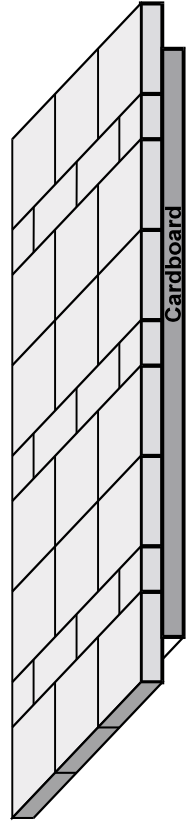

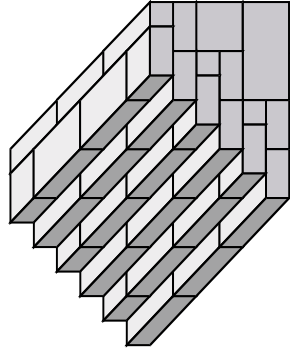

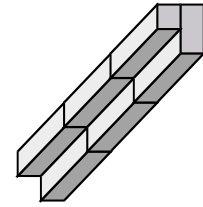

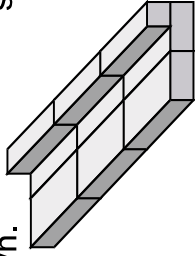

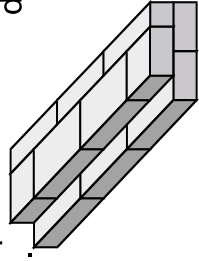

5. Stack your steps on top of them and glue the steps together. **Do not glue them to the support blocks**

4. Stack 9 regular blocks together but don't glue them

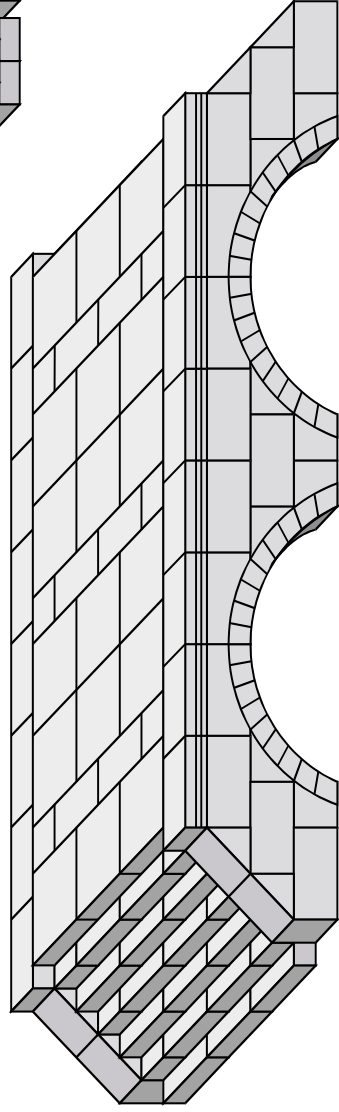

3. Make 3 of these step sections.

2. Glue flat tiles onto them as shown.

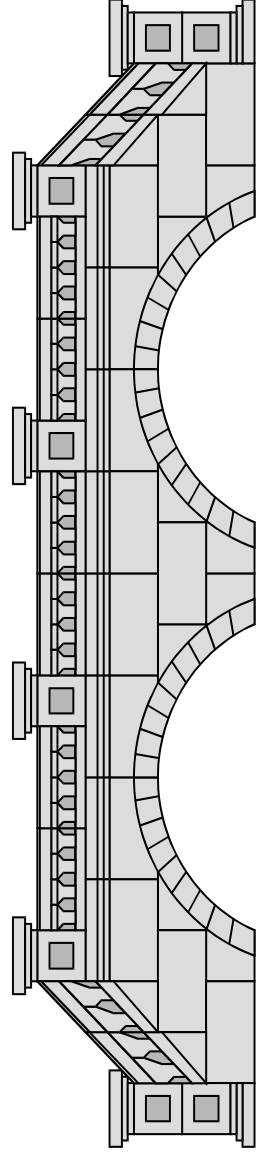

1. Glue 3 step blocks together.

6. Glue the floor tiles to a 3" x 6 1/2" piece of cardboard.

Add the railings and decorative pieces

Glue the sides on the bridge.
